

Destinations (Hotels & Resorts)

Bulk Upload Format Guide

1. Text Format (Paste in Text Tab)

Use this format when copying from documents, emails, or typing manually. Each city block starts with a city-state line, followed by properties.

Required Format:

```
City Name - State Name
Hotel Name - 4 Star
https://maps.google.com/...

City Name - State Name
Hotel Name - 5 Star
https://maps.google.com/...
Resort Name - 3 Star
Heritage Haveli (no star = Homestay)
```

Complete Example:

```
Udaipur - Rajasthan
The Oberoi Udaivilas - 5 Star
https://maps.google.com/?q=oberoi+udaivilas
Taj Lake Palace - 5 Star
https://maps.google.com/?q=taj+lake+palace
Amet Haveli Heritage

Gurugram - Haryana
Radisson Blu - 4 Star
https://maps.google.com/?q=radisson+gurugram
Lemon Tree Premier - 4 Star

Munnar - Kerala
Club Mahindra Munnar - 4 Star
https://maps.google.com/?q=club+mahindra+munnar
Spice Tree Resort - 3 Star
```

Rules:

- First line of each block must be "City - State"
- Star rating format: "Hotel Name - N Star" (N = 1 to 5)
- Properties with "Haveli", "Heritage", or "Homestay" in name are auto-detected
- Google Maps URL on the line after a property is auto-linked
- Regions are auto-detected from city name

2. Excel Format (.xlsx)

Use the provided template or create your own Excel file with these columns:

Required Columns:

Column	Accepted Names	Details
Hotel Name *	Property Name, Resort Name, Name	Full name of the property
City *	Town, Place, Location	City where property is located
State	Province, Country, Region	State or country name
Star Rating	Stars, Rating	1-5 (use 0 for homestays)
Type	Property Type, Category	Hotel/Resort/Heritage/Homestay/Villa
Maps URL	Google Maps, Maps Link	Full Google Maps link
Price	Rate, Cost, Price Per Night	Number only (e.g. 8500)
Description	Desc, About, Details	Short property description

Notes:

- Column names are flexible (similar names auto-match)
- Only "Hotel Name" and "City" are required
- First sheet of the Excel file is used
- Duplicate properties are automatically skipped

3. PDF Format

When uploading a PDF, the system extracts text and parses it using the same Text Format rules above. For best results:

- Use text-based PDFs (not scanned images)
- Follow the City-State / Hotel-Star format
- Keep content clean without excessive formatting
- If parsing fails, copy the PDF text and paste in the Text tab

4. Region Auto-Detection Reference

Regions are automatically detected from city names. Here are the supported regions:

National Regions:

Region	Cities Auto-Detected
North India	Delhi, Gurugram, Jaipur, Udaipur, Shimla, Manali, Agra, Varanasi, Lucknow, Chandigarh, Amritsar, Rishikesh...
South India	Chennai, Bangalore, Hyderabad, Kochi, Munnar, Ooty, Mysore, Coimbatore, Madurai, Puducherry, Kovalam, A...
